

SMARTSCOPE *PRO*

Smartscope FA

New innovation in Fluorescein Angiography

Key benefits

- High quality fundus Fluorescein Angiograms
- Combination of Slit Lamp and hand-held mode. Slit Lamp adapter for any Slit Lamp with patient head rest
- 9 internal fixation targets for peripheral imaging (total FOV 70 * 52 degrees)
- WiFi for easy image transfer to any PC, laptop, tablet or mobile device
- Timer display for effective data recording
- Detailed visualization of filling and non filling during the early and late phases of angiogram
- Portrayal of the contrast fluid's entire passage during the arterial/venal phase
- Outstanding value for the price
